*This notebook chronicles
my quest to save the Last Dragon.
The journey was dangerous and long, yet I met
many good people, and the memories will linger.
I love Simbala as if it were my home.
Yet evil persists there. I fear that
someday I will have to leave Fandora
and journey there once again.
Perhaps this notebook
will be of value then.*

Notes on the Journey to Simbala

To commence DRAGONWORLD

See insert for loading instructions.

Learning of New Features

Before anything else, enter NEWDATA. This will allow one to see descriptions of any features in DRAGONWORLD which were changed after this notebook was written.

Selecting the Means of Following the Quest

1. Enter KEYBOARD in order to use the keyboard. If a joystick is also available, enter JOYSTICK. No selection will cause the program to select the keyboard automatically.

At any point in the game, enter KEYBOARD or JOYSTICK to change from one means to the other.

2. Choose whether or not graphic images of the quest are desired. If no selection is made, pictures will be provided automatically. Enter PICTURESOFF if only text is desired, or PICTURESON if pictures should appear along with the text.

This feature may be changed at any time during the quest.

efore you Begin the Quest

It is now time to begin DRAGONWORLD. Consult the following pages on "The Language of Simbala." Also, four special commands are important as you embark on your journey.

The first command: CREATE

Use the CREATE command to create a Save Disk. If danger appears imminent, the Save Disk will let you "restore" to that point in your quest if you have previously saved it onto the Save Disk (see "Save").

To create your Save Disk:

1. Enter CREATE and press RETURN. Follow all instructions on the screen.

Beware: The program will erase any contents of a disk being formatted as a Save Disk.

2. When the disk drive light goes off, the Save Disk should be removed, and the game disk re-inserted. The mission can continue.

The second command: SAVE

Use this command to save points in the quest to which there may be a need to return.

1. Enter SAVE and press Return. Follow instructions on the screen.
2. Select the number of the next available position, or rename a position that was used earlier. Name the present point in the quest (up to ten characters). Then remove the Save Disk, re-insert the game disk and resume the quest.

The third command: RESTORE

Use this command to return to a point in the quest previously saved.

First, when an unfinished quest is to be resumed:

1. Load the program as usual and enter RESTORE. Follow the instructions on the screen.
2. Select a quest point from the list. The program will move to that point, and the quest may be resumed from there.

Second, in the event of a fatal accident:

1. The computer will ask: DO YOU WANT TO PLAY AGAIN?
Y or N?
2. Press Y, which will automatically restart the game.
3. Enter RESTORE and follow the same directions as above.

The fourth command: RESTART

Enter RESTART at any time to return to the beginning of the game.

The Language of Simbala

Customs of the Language

Speech while in Simbala should consist of succinct, precise commands. A verb (FEED, SEARCH, TAKE) should always start the command; and a noun, whether a person, a place, or a thing (HAWKWIND, BAZAAR, SWORD), should follow the verb. The word THE may be used before a noun (TAKE THE SWORD).

Multiple nouns associated with the same verb should be separated from each other by means of a comma or and, such as:

TAKE THE AXE AND THE SWORD.

TAKE THE AXE, THE SWORD, AND THE BOX.

TAKE AXE, SWORD, AND BOX

TAKE AXE, SWORD, BOX

It is not necessary to end a command with a period.

Several separate actions may be included in one command, but actions must be separated by the word THEN. For example:

TAKE THE BOOK THEN READ THE BOOK

TAKE THE BOOK THEN OPEN THE BOOK THEN READ THE BOOK

OPEN THE BOX AND THE POUCH THEN CLOSE THE DOOR

TAKE ALL will result in all articles being taken. Instructions should be specific and logical. HIT THE NAIL may elicit the response WITH WHAT? Complete the command: HIT THE NAIL WITH THE HAMMER.

Be aware that instructions for complicated tasks should be entered in a logical order. For instance, one cannot set sail in a boat without the command UNTIE ROPE. Likewise, if one enters UNTIE BOAT before ENTER BOAT, the boat will certainly drift away, leaving the traveler on the shore. Also, if it is necessary to BOARD THE RAFT, be sure to GET OFF RAFT before trying to explore new surroundings.

Commands should not be over two typed lines in length. If longer commands are needed, separate commands into logical sequence and press RETURN between them.

Errant Speech

Commands that make no sense in Simbala—if they appear impossible, if they employ objects not at hand, if terms are foreign or of another land—will elicit a response advising the adventurer to think again. Upon such a response, a different phrase should be tried.

Conversing with Friends and Strangers

To speak to another person or creature in DRAGONWORLD, simply enter TALK TO <name> or ASK <name>, as in

TALK TO ALYN

ASK ALYN.

If a person or creature speaks, respond to them by entering the remark as any other command would be entered: SAY NO. It is not necessary to add quotation marks ("NO").

A new acquaintance might have information that would be of value, and might ask "What do you want to know?" Answer with a statement that begins with ASK <name> ABOUT. Name the topic of choice.

Finally, when the help of Hawkwind is needed, enter ASK HAWKWIND or TALK TO HAWKWIND.

Replenishing Funds

There will also appear, with the list of possessions, a tally of the money remaining to be spent. If funds are depleted, consider visiting the Gaming House in the Bazaar, where the game of Dragonstones (described in the section named ACTION) may be played for talmas, the coin of the realm. The games may be played as often and for as long as desired.

I nvestigating the Surroundings

Move about in Simbala by entering directions as full sentences (GO NORTH, GO DOWN), specific directions (SOUTH), or abbreviations (SW, NE, W, E, and so forth). UP and DOWN may be abbreviated U and D, respectively.

Should the surroundings need to be explored, enter SURR or LOOK (L). A description of the environment will appear. For further details about any given item, enter EXAMINE <name of item> or INSPECT <name of item>.

Keep at hand the implements for map-making, in case there is risk of losing the way.

P ossessions

To obtain a complete list of possessions—money, weapons, provisions—enter INVENTORY (I). Study the list and inspect unfamiliar possessions closely. For a description of any chosen item, enter INSPECT <item> or EXAMINE <item> as above.

T he Dragonpearl and Other Special Powers

Five times in the course of a quest—and only five times—the Dragonpearl may be invoked. This Dragonpearl is a magnificent opalescent stone which contains the memories and perceptions of the Last Dragon and those that came before him. The holder of the Dragonpearl possesses great power. Use this power wisely. Enter DP when the aid of the Dragonpearl is sought. The quest will be resumed in a different, safer place.

Also, seek Hawkwind at his home early in the quest; his counsel will be invaluable.

Additional Instructions

Selecting The Means of Undertaking The Quest

Enter JOYSTICK if you wish to use one during your quest. You may enter KEYBOARD or JOYSTICK at any point to change from one means to another.

(over)

The Command "ACTION"

This command should be used to practice any of the three action games that will be encountered during DRAGONWORLD (see below). The consequences of your practice will not affect the quest.

Use the following keys for keyboard controls:

 = up

 = down

 = right

 = left

Press the **space bar** to fire shots when using keyboard controls and the **target button** when using the joystick.

Enter ACTION for these action games:

Bogs and Bats—Shoot all the bats and coldrakes, whether large or small ones, that attack in the swamp. Beware that the coldrakes will shoot fireballs at the quester, while the bats will simply swoop from above and hit. But don't shoot the single coldrake at the end: it will carry one to safety.

Maze of Madness—Successfully traverse the labyrinth of pitfalls and corridors. Avoid falling over cliffs, or the maze game must be started again. The ladders slant in one of two different directions; either group of ladders might disappear at any moment, causing the quester to fall and lose the way.

Dragonstones—A popular diversion in Simbala, it is played to win money: talmas may be collected by choosing stones of the right color. To gamble, first pay fifteen talmas, or obtain credit for that amount from the proprietor. At each level of play (there are four), there will be two colors of stones, one the winning color and the other the losing color. If you choose the winning color, and successfully catch just those stones, you will win talmas. If you successfully catch only the stones of the losing color, a consolation will be offered—if you can catch the stone of the small dragon flying across the screen, you will be able to take home several more talmas than you began with.

Press the **spacebar** or the **joystick button** in the maze of madness or dragonstones to stop the action game and return you to your place in the quest.

Please Note: You will automatically be returned to the quest after playing any of these games.
